

Trevor Hewitt, Full Stack Developer

OAKLAND, CALIFORNIA, 94608, UNITED STATES · 707-293-4784

PROFILE

Curious and critical thinker who thrives on puzzles and problem solving, interested in finding creative solutions and improving efficiency.

EXPERIENCE

Full Stack Web Developer at Learners Guild Nov. 2016 – Present

Building and adding to open source software in an incubator collective of self-taught developers supported by senior engineers. I build full stack web apps in JavaScript, specializing in Node, Express and React.

Project Highlights:

LOS: Learning Operating System

- Active open source software used by 80 people daily
- React and Redux front
- RethinkDB and GraphQL back

Mirror:

- Interview preparation and quiz application.
- React front
- Postgres with Knex back

Event Coordinator / Manager at The MADE Sep. 2014 – Present

Event Coordinator and Manager at Oakland's non-profit video game museum, offering free coding and design classes to the public.

- Successful \$50k kickstarter campaign amongst other fundraisers
- Hosting hackathons, field trips, and educational events.

EDUCATION

UC Santa Cruz, Bachelor of Philosophy Jun. 2010 – May. 2012

Studied philosophy with a focus on critical thinking and logic. My mission was to enhance my own thinking and problem solving. Practicing articulating my thoughts and ideas to learn anything I need with feedback and criticism, I remain confident in my arguments, my knowledge, or lack of it.
